

BEDDER-STALL™

Pelleted Corn Cob Horse Bedding

- 100% natural: corn cob and water only
- Natural clumping for ease of "picking"
- Natural ammonia odor reduction with pleasant fragrance
- Consistent composition and hardness for low dust factor
- Faster composting breakdown: up to 4x conventional wood pellets
- Cost effective: up to 57% savings per stall on an annual basis
- Works with stall mats, stall hammocks and virtually all other stall flooring
- Safe for all animals

Bedder-Stall™ has shown up to **3x the absorbency rate** compared to wood-based bedding. The natural clumping characteristic of corn cob, combined with enhanced absorbency equals **lower costs, reduced product usage, and faster stall cleaning times.** This means more time with your favorite hooved friend.

HOW TO USE

- Remove all prior bedding and clean stall before adding any bags of **Bedder-Stall**.
- Continue to add product as needed.

10x10 Stall

Start by adding (4) 40-lb. bags of **Bedder-Stall** to a clean stall.

10x12 Stall

Start by adding (5) 40-lb. bags of **Bedder-Stall** to a clean stall.

12x12 Stall

Start by adding (6) 40-lb. bags of **Bedder-Stall** to a clean stall.

Bedder-Stall is purposely manufactured for safe footing with a consistent composition that makes it softer than wood-based products, it absorbs liquids to provide remarkable clumping

ability, and reduces odors – for easier-to-clean stalls while using less bedding product.

By just using corn cobs sourced from American farmers and water, **Bedder-Stall Pelleted Corn Cob Horse Bedding** is the ultimate renewable product. It serves as a carbon source, diminishing compost piles by as much as 80% compared to wood-based products, and can easily be spread over fields once used. This 100% natural bedding gives peace of mind to horse owners that you are doing something good for, not only your horse, but also the environment!

Proverbs 21:31

"The horse is made ready for the day of battle, but the victory belongs to the Lord."
